Bitholding screwdriver for 1/4" hex drive bits

The 815/1 bitholding screwdriver is suitable for 1/4". Reliable and secure hold of the bit thanks to the magnetic bit mounting.

Screwdriving with the bit ratchet

With its 1/4" external hexagon connection, the Zyklop 8011 bit ratchet can be inserted in the 1/4" hexagonal bit mounting of the 815/1 bitholding screwdriver. The Zyklop bit ratchet is suitable for 1/4" hex drive bits.

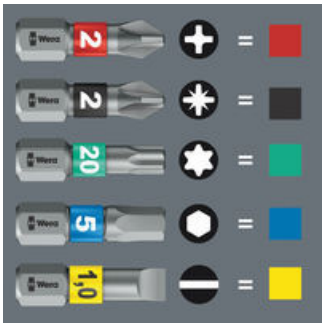
The 899/4/1 bit holder

Universal holder for mounting bits with 1/4" external hexagon drive. Stainless steel sleeve for outstanding corrosion protection. The retaining ring guarantees optimal fit of the tool in the holder. The strong permanent magnet holds the bits firmly. Suitable for machine use with mounting as per DIN ISO 1173-F 6.3.

The 870/1 connector

1/4" sockets can also be used with the Zyklop Mini bit ratchet by connecting the 870/1 adapter (¼" hexagon to 1/4" square head).

Bits with Take it easy tool finder



Take it easy tool finder with colour coding according to profiles and size stamp - for simple and rapid accessing of the required tool.
