

SteelPRO™

FACE PROTECTION

A superior steel mesh visor solution, featuring an innovative mesh design.

- Unique 'honeycomb' mesh pattern improves visual clarity.
- Blocks flying debris, while keeping workers cooler.
- Provides a clear field of vision, without risk of fogging.

The unique honeycomb configuration of the SteelPro™ etched mesh visor allows for improved visual clarity.

SteelPro™ is part of the the Woodsman PRO Forestry system, an integrated product solution for forestry applications or environments that require head, hearing and face protection at once.

VLT AND CLARITY TESTING

When tested against 10 other mesh products, the SteelPro visor provided the highest VLT (visual light transmittance) and clarity levels out of ten traditional steel mesh visors in the market*.

**Tested in February 2026 in accordance with the ANSI Z87.1-2025 Special Purpose Transmittance standard. Testing performed by an independent testing laboratory accredited by the American Association for Laboratory Accreditation (A2LA) to the ISO/IEC 17025 standard.*

*TEST RESULTS:

Product	Transmittance	Clarity
SteelPRO®	81.3%	99.8%
Visor B	79.7%	99.8%
Visor E	68.6%	99.6%
Visor A	63.2%	99.6%
Visor C	56.1%	99.5%
Visor F	53.0%	99.3%
Visor D	52.0%	99.4%
Visor H	45.5%	99.2%
Visor G	42.0%	99.2%
