

Woodsman® Forestry Systems provide an integrated product solution for forestry applications or environments that require head, hearing and face protection at once.

Made with high quality products and conveniently packaged together, these components include:

- **Gladiator™ II Safety Helmet** - a comfortable, cap-style safety helmet with a Cool Guard™ self-wicking brow pad.
- **Cap-Mount Earmuff** - choose between metal wire or dielectric designs.
- **Steel Mesh Visors** - provide protection against flying particles while keeping workers cool and providing a clear field of vision.

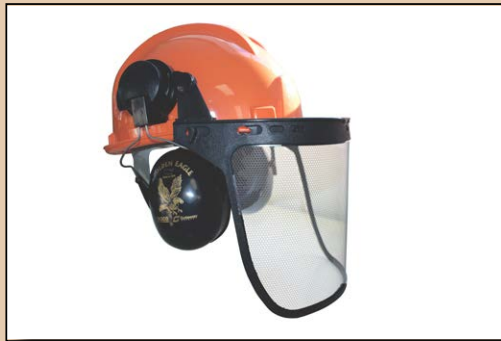

Additional variations and colors may be available. Please call Gateway Safety's customer service department for details.

Now available in a Woodsman® PRO option with the premium Golden Eagle™ earmuff and the NEW SteelPro™ etched mesh visor, which provides better visual clarity in the field!

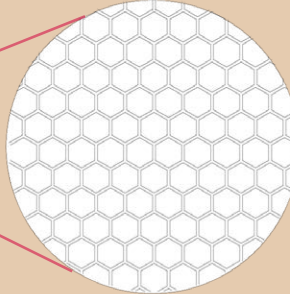

Woodsman® Systems

NEW! Woodsman® PRO (#611132)

NEW!
SteelPro™
Etched Mesh
Steel Visor

The unique honeycomb configuration of the SteelPro™ etched mesh visor allows for improved visual clarity. When tested, the SteelPro visor provided the highest VLT and clarity level out of ten other traditional steel mesh visors.
