SNAP-IN MC CONNECTORS

Q: What is the advantage of these offerings?

A: *The Snap-In MC Connectors can save labor. The fittings can be snapped in place to the knock out holes to secure vs. using a locknut to secure it.*

Q: Are they UL approved products?

A: *All the connectors are cULus listed items.*

Q: What is the material for these products?

A: *The Snap-In MC Connectors are made with durable zinc die cast materials.*

Q: Where can these be used?

A: *The Snap-In MC Connectors are used for indoor only applications.*

Q: What size cables?

A: *The cable size varies depending on the connector. See the specification sheet for more detailed information.*

Q: What type of cables?

A: *The cable type varies depending on the connector. See the specification sheet for more detailed information.*
